PROFESSIONAL DERMA SA,
RIVA A. CACCIA, 1/D , 6900 | LUGANO
SWITZERLAND

 **PROFESSIONAL**
DERMA

BENEFITS OF CRYOTHERAPY

- Local **ANTI-INFLAMMATORY** and **ANTI-SWELLING** action
- **STIMULATE** blood circulation
- **COOL** and **TONE UP** the skin
- **COMBAT** the early appearance of wrinkles
- **CLOSE** dilated pores
- **SOOTHE** puffy eyes and **COMBAT BAGS** under the eyes
- Obtain a vasoconstrictive effect for **ANAESTHETIC** purposes

PROBLEM WITH ICE IT MELTS..

- It melts quickly and its cold effect cannot be effectively modulated
SHORT BENEFIT OF CRYOTHERAPY
- It drips during use and may contaminate the work area
NEED TO WRAP THE ICE CUBE INTO A CLOTH
- It is difficult to carry
NEED A FREEZER ON SITE

GET THE
BENEFITS OF THE ICE,
WITHOUT THE MESS
AND FOR LONGER

- **MAINTAINS** the effective temperature for more than 40 min.
- **DOES NOT DRIP** (eutectic gel in an ergonomic shaped container made of non-toxic material).
- **CAN BE REUSED** an infinite number of time

MAIN INDICATIONS IN THE CLINIC

- **ADJUVANT IN CONCEALING BAGS UNDER THE EYES**
- **IMPROVEMENT OF COUPEROSE**
- **IMPROVEMENT OF MICROCIRCULATION** (skin health, prevention of sagging)

FOR YOUR PATIENTS FOR HOME CARE

JALUPRO ICE CUBE

is a great tool for post procedure and to enjoy the benefits of

CRYOTHERAPY

at home

With its anatomical shape, **JALUPRO ICE CUBE** is perfectly adapted to massage the face and stimulate lymphatic drainage points.

Use it morning and night for 3 minutes for a toned face, to prevent puffy eyes and stimulate micro-circulation

HOW TO USE JALUPRO ICE CUBE

- ❑ Put ICECUBE in the plastic bag provided in the package
- ❑ Put the bag in the freezer for at least 12h (to obtain maximum refrigeration, leave it there for 24 h).
- ❑ Remove the bag from the freezer and take ICECUBE now ready for use.
- ❑ Once used, disinfect the product with hydrogen peroxide or similar (not in an autoclave).
- ❑ Insert the cube in the bag and put it back into the freezer for future use.
